

# Gross domestic product and gross value added in the regions' breakdown<sup>1</sup> in 2019

30.09.2021

## 56.0%

Percentage of GDP value generated in the 5 regions in 2019

In 2019, more than 1/2 of the national value of gross domestic product was generated in the 5 regions: Warszawski stołeczny, Śląskie, Wielkopolskie, Dolnośląskie and Małopolskie.

### Gross domestic product

In 2019, value of the generated gross domestic product amounted to 2293199 million PLN. In comparison to 2018, it grew by 8.1% at current prices.

In all regions, growth of GDP at current prices was observed in comparison with 2018, the highest in Warszawski stołeczny region – by 9.6% and the lowest in Kujawsko-pomorskie region – by 5.8%.

In 2019, the shares of individual regions in the generation of GDP ranged from 2.0% in Opolskie region to 17.6% in Warszawski stołeczny region. Value of GDP generated in Warszawski stołeczny region in 2019 was almost 9 times higher than in Opolskie region (in 2018, more than 8 times higher).

In the group of regions with high shares in the generation of GDP in 2019, apart from Warszawski stołeczny region, there were also the following regions: Śląskie, Wielkopolskie, Dolnośląskie and Małopolskie. Entities acting in the 5 above-mentioned regions, in which 49.7% of total employed persons in the national economy worked, jointly generated 56.0% of the national value of GDP.

Growth of gross domestic product at current prices in all regions in comparison with the previous year

**Graph 1. Share of regions in the generation of gross domestic product in 2019 (current prices)**

In 2019, the following regions were in the group of regions with low shares in the GDP generation (less than 3% each): Opolskie, Lubuskie, Podlaskie, Świętokrzyskie and Warmińsko-mazurskie. Their total share in the GDP generation amounted to 11.1% and employment in these regions constituted 13.2% of the total employed persons in the national economy.

In 2019, the average level of gross domestic product per capita in Poland amounted to 59741 PLN. In comparison with 2018, it was higher by 8.2% at current prices. In all regions growth of GDP per capita at current prices in comparison with 2018 was noted – from 6.0% in Kujawsko-pomorskie region to 9.9% in Mazowiecki regionalny region.

In the regions' breakdown, the level of GDP per capita in 2019 was considerably differentiated. Dispersion indicator of GDP per capita calculated at the regions' level for Poland in 2019 amounted to 22.7%.

The highest level of GDP per capita in 2019 was noted for Warszawski stołeczny region – 131298 PLN, exceeding more than twice the national average (similarly as in 2018). In 2019 the level of GDP per capita above the national average was also observed in the following regions: Dolnośląskie – by 9.5%, Wielkopolskie – by 8.4% and Śląskie – by 2.5%.

The highest level of GDP per capita, obtained in 2019 in Warszawski stołeczny region, exceeded over 3-times the value of GDP per capita of Lubelskie region, in which the lowest level of GDP per capita was recorded.

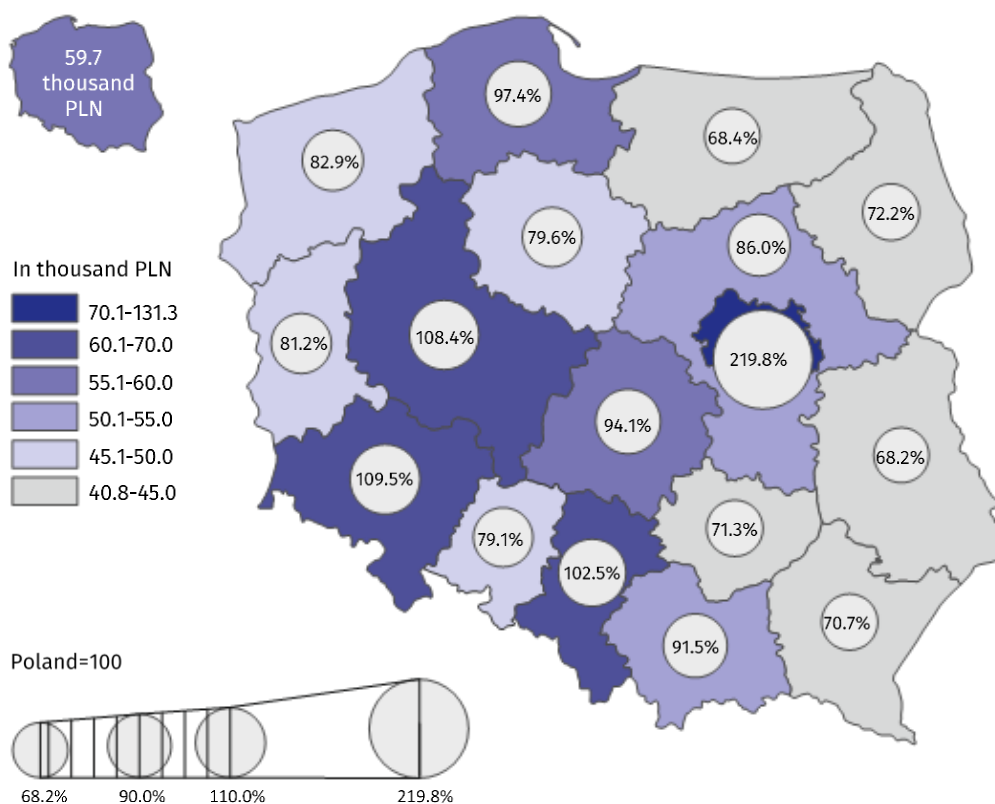

Low level of GDP per capita (less than 75% of the national average) in 2019 was observed in the following regions: Lubelskie, Warmińsko-mazurskie, Podkarpackie, Świętokrzyskie and Podlaskie. In 2019 the value of GDP per capita in these regions varied from 68.2% to 72.2% of the national average.

The lowest level of GDP per capita in 2019, noted in Lubelskie region, represented 31.1% of the level of this indicator for the best in this regard Warszawski stołeczny region.

Value of GDP per capita exceeding the national average was obtained in 4 regions: Warszawski stołeczny, Dolnośląskie, Wielkopolskie and Śląskie

Low level of GDP per capita (less than 75% of the national average) was noted in the 5 regions of Eastern Poland: Lubelskie, Warmińsko-mazurskie, Podkarpackie, Świętokrzyskie and Podlaskie

### Gross value added by kind of activity

In 2019, 29.9% of the national gross value added was generated by the entities engaged in activities in the area of services covering trade; repair of motor vehicles; transportation and storage; accommodation and catering; information and communication. In the individual regions, the share of these entities in the generation of gross value added in 2019 ranged between 22.8% in Mazowiecki regionalny region and 38.2% in Warszawski stołeczny region.

In 2019, entities engaged in industry generated 25.3% of the national gross value added. In the regions' breakdown, in 2019 significant variation of the shares of industry was observed – from 12.0% in Warszawski stołeczny region to 35.2% in Mazowiecki regionalny region.

In 2019, entities engaged in other services (including public administration and defence; compulsory social security) generated 25.2% of the national gross value added. In 2019, Małopolskie region was characterised by the highest share of other services – 28.9% while Mazowiecki regionalny region was marked by the smallest share – 19.2%.

Entities engaged in financial and insurance activities; real estate activities in 2019 generated 9.3% of the national gross value added. In the individual regions, the share of entities acting in the field of financial and insurance activities; real estate activities in the generation of gross value added in 2019 ranged between 6.3% in Mazowiecki regionalny region and 14.5% in Warszawski stołeczny region.

In 2019, entities active in construction generated 7.7% of the national gross value added. In the regions' breakdown in 2019, the share of units engaged in construction in the generation of gross value added ranged from 6.2% in Łódzkie region to 9.4% in Małopolskie region.

The share of agriculture, forestry and fishing in the generation of the national gross value added in 2019 amounted to 2.6%. In the individual regions, in 2019 the shares of entities conducting activity in the range of agriculture, forestry and fishing were significantly differentiated – from 0.6% in Warszawski stołeczny region to 9.1% in Mazowiecki regionalny region.

In 2019, in all regions an increase of share of entities active in the field of financial and insurance activities; real estate activities in the gross value added generation was noted in comparison with 2018
